## EXPERIENCE

---

North Coast Media, Cleveland, OH (2020-current)

### Web Developer

- ▶ Maintain the existing Wordpress websites.
- ▶ Redesign and develop the Pest Management Professionals' website to give it a more attractive, user friendly, and responsive experience.
- ▶ Creating a custom solution to auto generate HTML emails for weekly newsletters across all brands.

Recess Creative, Cleveland, OH (2018-2020)

### Junior Front-End Developer

- ▶ With problem solving and attention to detail, creative designs were brought to life. Projects were completed using various languages and tools including nunjucks, twig, bootstrap, cross browser testing, etcetera.

Independent Contract (2017)

### Front-End Design Intern

- ▶ Inspectivize Technologies Inc. & PurchaseAlly Inc.
  - Designed the website as well as the web and mobile applications. Tools used were Pixlr and Just In Mind.
- ▶ America's Premier Inspections LLC.
  - Redesigned the existing website to increase user usability. Just In Mind was used to create the design.

We Can Code IT, Cleveland, OH (2016)

### Software Engineering Apprentice

- ▶ Engaged in a collaborative, career-focused environment, managing full lifecycle design, development, testing, and delivery of web applications.
- ▶ **CAPSTONE PROJECT:** Safekeepers QR is a web-based application that allows parents of children to easily input critical health data and connect it to a QR code. Scanning the QR Code allows emergency responders instant access to that vital information, while instantly notifying the parent that the code has been scanned and the location of the child via text.
